

AgForm Granules

Non-Spherical Granule, Light to Dark Brown in color, essentially odorless, fibrous material. No additives and/or binders. Excellent Flow characteristics, available in several particle size specifications and ranges.

Uses:

- Inert Carrier
- Feed Ingredient
- Absorbent Material
- Fiber Ingredient
- Cellulosic Products
- Fiber Filler Products
- Extender Products
- Soil Additives
- Soil Amendment Products
- Lost Circulation Materials

PRODUCT SPECIFICATIONS

Variable Characteristics

Nominal Screen Size:	10/20 (U.S. Standard)
Size Guide Number (SGN):	190 - 210
Uniformity Index (UI):	30 plus
Bulk Density (Loose):	26 - 28 #/cubic foot
Bulk Density (Compacted):	28 - 30 #/cubic foot
Bulk Density (Commercial):	27 - 28 #/cubic foot
Angle of Repose:	38 - 40 degrees
Resistance to Attrition:	98 percent plus

Particle Size Specifications

Tyler	U.S.	U.S.
+ 6	+ 6	0 - 1
+ 8	+ 8	15 - 40
+ 10	+ 12	80 - 100
+ 14	+ 16	95 - 100
+ 20	+ 20	98 - 100
+ 28	+ 30	99 - 100
- 28	- 30	0.5% max.
