

## Fine Grind Peanut Hulls

Light to Dark Brown in color, essentially odorless, fibrous material, finely ground.

### Uses:

- Bedding Materials (Livestock & Small animal)
- Feed Ingredient
- Absorbent Material
- Fiber Ingredient
- Cellulosic Products
- Inert filler Products
- Extender Products
- Soil Additives
- Soil Amendment Products
- Alternative Biomass Fuel
- Lost Circulation Materials

## PRODUCT SPECIFICATIONS

### Physical Characteristics

---

Color:	Light to dark brown
Odor:	Essentially none
PH:	5-6 Bulk (typical 5.0)
Moisture (Karl Fisher):	6.5% Maximum (typical 6.0)
Bulk Density:	12-14 lbs./CuFt.
Carrying Capacity: Dry, Free Flowing	
Water: (wt/wt basis)	51 – 52%
Oil: (wt/wt basis)	31 - 32%
Absorption:	
Water: (wt/wt basis)	168% - 169%
Oil: (wt/wt basis)	90% - 91%

### Chemical Composition\*

---

Crude Fiber:	57.7%
Protein:	6% - 8%
Kjeldahl factor: 5.46	
Ash:	2%
Lignin, permanganatc:	6.78%
Cellulose:	51 - 55%
Total Dry Matter:	12.7%

### Nutritional Analysis

---

Calories:	350 per 100g
Total Carbohydrate:	79%
Dietary Fiber, Total:	71g per 100g
